RE: Property Access Permission Request

Dear Mr. Smith:

Due to groundwater quality issues along the west side of the Huron County Sanitary Landfill, the Ohio EPA is requiring Huron County, in accordance with section 3745-27-10 of the Ohio Administrative Code, to determine the vertical and horizontal extent of waste derived constituents in groundwater to the west of the landfill. While we have several groundwater monitoring wells installed in this area of the landfill, Ohio EPA has determined that they are inadequate in number and placement to address their concerns.

In order to address Ohio EPA's concerns, it would be necessary to install up to three groundwater monitoring wells on your property located adjacent to and west of the landfill. We propose installing these wells at the foot of the slope of the landfill on your property approximately 600 feet south of the existing groundwater wells. To install these permanent wells, it will be necessary to improve access to this area.

If you agree to allow access for installation of these wells on your property, please sign and date both copies of this letter, and return one copy to our office within 14 days.

Thank you very much for your consideration and help in resolving this matter.

OTHER BUSINESS

Tom Dunlap discussed CEBCO email and Time Warner contract to enter the building to work on the equipment for the Ohio Health Department.

Mr. Welch discussed the Solid Waste Agreement extending time within which to complete comprehensive study. Mr. Welch stated that Daivia Kasper reviewed the agreement as is fine with it. The only recommendation Ms. Kasper had is that the Board review the agreement. Mr. Welch explained that this is to extend the study for 6 months. Mr. Bauer did comment that normally the City of Norwalk would have to sign the agreement first, however Ms. Nolan stated before it could be put on the City of Norwalk Council's Agenda the Commissioners' needed to review and sign.
