At 9:21 a.m. Dennis Russo, Ohio TeleCom to present an update with Ohio Telecom. Mr. Russo stated that they wanted to revisit what they had discussed in the beginning of the project with the county and bring them up to date as to where they are at now. Mr. Russo stated that as of date all phone lines have been moved over and savings is approximately \$12,000 per year and starting this week their technicians will be doing connect overs. Mr. Silcox asked the difference in costs between DSL and Fiber. Mr. Russo stated that a DSL 1 meg in this area regardless of where you get it you are looking at about \$30.00 per month for 1 meg which is the most inexpensive that you can get, if you go the 3 meg you to anywhere from \$60.00 to \$80.00 per month. The courthouse everyone had their own thing going and referred to the analysis that they did. Mr. Russo stated that this building, the sheriff building and the DJFS building are the remaining buildings to be put on the fiber. Mr. Silcox asked Mr. Russo to finish the cost analysis. Mr. Russo stated that in the courthouse you went from all the costs of the DSLs in that building compared to putting it onto a 10x10 fiber was a \$100.00 difference in your billing per month. Mr. Russo stated that everyone is going to fiber today and that they have four other counties that they have the fiber in now. Mr.

Russo explained that since we have been in the fiber move for 3 years the costs have been coming down and they have more competition as well. The other counties paid a lot more and that Huron County is in a good position now because the rates have become substantially lower. Another county that has the same identical thing they are at \$6,000 a month increase and when I get done with you today your increase for adding the other two buildings is only going to be \$400.00. That is how much this has come down. Mr. Bauer stated now when you talk about the courthouse you are not talking about the Huron County Office Building as well. Mr. Russo stated the Courthouse itself. Mr. Bauer stated so you are not in the building next to it which is the old bank building. Mr. Russo stated it is everything in that block of buildings. They are all connected into the central room which they call the CO in the courthouse so he would say yes that they are. Mr. Hintz stated so the cost went up \$100.00 and everyone is at 10 meg. Mr. Russo stated yes everyone gets 10 meg up and 10 meg down. Mr. Russo discussed getting everyone in the county on one county network instead of multiple DSL all over the place. Mr. Russo also explained the phone systems and how they would work with the fiber connection. Mr. Russo talked about DJFS being on the state service but that their job store is not and further explained how that would work. Everyone will be on their own secured line even though you would be sharing the fiber but no one else can access your files. Discussion was had in regards to the Health Department's phone system and how it would work with the fiber. Discussion was also had in regards to court arraignments. Mr. Russo referred to an analysis and stated that at the courthouse they went to a 10 meg connection and it only cost an additional \$100.00 per month and to put the DJFS, the Sheriff, and the 180 Milan Avenue building on the same 10 meg connection there is a difference of \$400.00 which is pretty much \$200.00 per area. If you go back to the courthouse there is a \$1,500.00 install on the 10 meg connection but on these two 10 meg connections they are not charging for the install and one of the things they decided to do because of their longevity with the county we want to continue to build their longevity with the county. We are not going to come to you and ask for up front money. Their contracts that they are going to leave today are clear and your contracts are even more clear and are already reviewed by Daivia Kasper, Assistant Prosecutor and the only thing that has changed in this contract is that they changed their monthly rates which comes out to \$400.00 total more than what you are paying now. Mr. Russo stated that they do not have cost factors for a lot of these DSL accounts that are out there.

Mr. Russo stated that they will waive the up front costs or the install fees. Mr. Bauer stated that at this time they are very favorable and asked them to talk with the Health department and other departments. Mr. Silcox asked him to talk with the other departments as well. Mr. Bauer stated so what we are doing is going to \$400.00 per month and we are going to split that up. Mr. Russo said correct and that he would take the spread sheet and divide it up among the departments. Mr. Bauer stated that at this point it is very favorable we need to see what Tim Hollinger says from the Health Department, see what DJFS says and he thinks it would be great if the prisoners could be on video and not having to transport them around. Mr. Russo stated that this is the biggest thing right now in all the counties and has the hugest savings. Ottawa County is checking their insurance because if you aren't transporting you should be able to reduce insurance rates.

PUBLIC HEARING AMENDMENT TO THE 2011 CDBG B-F-1BJ-1 GRANT AGREEMENT

At 10:00 a.m. Gary W. Bauer opened the hearing of the 2011 CDBG B-F-1BJ-1 grant agreement. Nadine Thompson, WSOS explained the project and the costs and the reason for such hearing as The City of Willard is requesting to extend their current Street Improvement project (Activity #1) an additional 210 LF. They are also requesting to extend their Sidewalk Improvement Project (Activity #2) to install/replace an additional 230 LF of curb and 3 additional curb ramps. This will in no way affect the CDBG funds allocated to this project. Willard intends to use additional City Funds to finance the additional work. The Activity Description for both activities reads as follows:

480 LF of road will be resurfaced. 2½" of asphalt will be removed and 2½" will be placed back. Some base repair will be performed. 550 LF of curb will be replaced/installed along with 1,500 SF of sidewalk. 6 curb ramps will be installed or brought up to ADA standards.

The total project cost is estimated at \$89,700. The original amount of 2011 CDBG funds allocated to the City will remain the same at \$40,000. The City will provide the remaining balance of \$49,700.

Mr. Bauer, President called once for testimony in favor of the amendment to the 2011 CDBG B-F-1BJ-1 grant agreement, hearing none called twice for testimony in favor of the 2011 CDBG B-F-1BJ-1 grant agreement, hearing none called thrice for testimony in favor of the 2011 CDBG B-F-1BJ-1 grant agreement, hearing none called once for testimony against 2011 CDBG B-F-1BJ-1 grant agreement, hearing none called twice for testimony against 2011 CDBG B-F-1BJ-1 grant agreement, hearing none called thrice for testimony against 2011 CDBG B-F-1BJ-1 grant agreement, hearing none closed the hearing.

The airport tank is registered with the state and the airport takes care of such tank per following email received from Carl Essex.

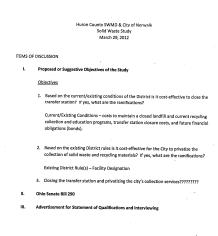

Cheryl,

We had a question come from Pete regarding the Underground Storage tanks at the Airport.

Let Pete know both tanks are currently registered with BUSTR and the annual PUSTRCB fee for the tanks are annually accounted for in the airport's budget. I plan on becoming certified under the new, mandatory, training requirements this summer.

Second topic: Mr. Welch stated that he had met with the city of Norwalk on March 29, 2012 in regards to the study that we agreed to in the District Plan.

Discussion was had at this meeting to evaluate the transfer station and to evaluate the trash and recycling pick up for the city of Norwalk. Mr. Welch stated that he was trying to get everyone to agree on what we actually want to have done so that we can narrow our costs and limit so costs from the consultant that we hire. We agreed to put an RFP out there SOQs for consultants. Mr. Welch stated that the more he studies Ohio Senate 290 and if this happens they will postpone the study as the rules will be changing if this bill has legs. If this bill passes they agreed to postpone the study at this time because Senate Bill 290 will change some of the Solid Waste District laws in the State of Ohio. Mr. Silcox asked if the city was in agreement with this and Mr. Welch stated yes they are or at least Mark is ok with it but it hasn't gone to city council yet.

Discussion was had in regards to the hood repair for the fire suppression. Mr. Bauer stated that anything that is not part of the building is the responsibility of the Norwalk Child Care and that is the way it has always been. Mr. Silcox stated that he does not have a problem with that but he is concerned about some incidents that have the possibility of potential liability and that concerns him and this needs to be monitored and recorded. We need to take a look at this at the end of the school and see how many there are and see if because of liability we will need to go in a different direction. Mr. Bauer stated that this is being done and it was a topic of discussion at the last consortium meeting which should be in the meeting minutes. Mr. Welch spoke about mowing the soccer fields and stated that right now the BMX or the soccer people mow just the soccer fields and the county mows everything behind it and everything to the sides. Mr. Welch stated that the way he interprets it is that they are supposed to take care of the whole area. Ms. Kasper stated that she feels that the soccer people are responsible for the field area from the parking lot to the parking lot. Further discussion was had and it was decided that in the fall the soccer people will probably not be using these fields any more.

Mr. Welch discussed the general service agreement contracts with Arcadis along with contracts for annual reports and ground water. Mr. Welch stated that he needs to get these going as it is already April and is recommending that we keep the same contract. Mr. Welch stated that the current price of the contract is the same as last year. Mr. Welch spoke in regards to the bench for the wet cell and explained what he has found. The court does not want any kind of wood product to be used for this. Mr. Welch explained what he has found and stated that he has found stainless steel stools which are \$150.00 each but however the court administrator is talking to the judge to see if these stools would work, and has looked at recyclable material for benches and has talked to Larry Skin in regards to putting two brackets on the wall for some kind of metal seating as well. Jail still isn't using the work order procedure at this time. Mr. Welch stated that he has sent them numerous emails reminding them to use them. They are still using what they used in the past and they are not signed. At some time he would like to send their work orders back to them and tell them if they don't start using the right ones they are not going to process them. Mr. Hintz brought up the fact of training the guys that work in the jail. Mr. Welch stated that the new maintenance person has been trained and any time someone goes there on a part time basis he does not have to be trained. Mr. Welch stated that as long as we keep our full time person trained we are good and the union has dropped their grievance in this regards as well. Mr. Silcox asked Mr. Welch to prepare a very comprehensive five year plan and maintenance is going to be a very important part of such plan. We will hopefully do some work sessions in the next couple of weeks to get a five year plan in place.

<u>At 10:45 a.m.</u> Lucinda Smith, came before the board in regards to Huron County Transit report. This report will cover October – April.

HURON COUNTY COMMISSIONERS APRIL 2012 REPORT

April 3, 2012

- Huron County Transit continues to be extremely important to the county residents that have no other way to get from their homes to jobs, doctor offices, etc. We see an increase in requests for service when the cost of gas continues to rise or the weather turns. The changes that we found necessary at the beginning of 2012 have impacted our clients in two ways: the reduction in hours has impacted some people who work outside of our operating hours, creating a hardship for them to get to work; the increase in fares may have eliminated some lower income clients from being able to afford the service. At this point in time, we cannot accommodate either set of individuals due to budgetary issues.
- All the busses have been fitted with Samsung tablets that we use with the RouteMatch system as well as providing us with GPS information. This project was budgeted as a capital expense and 90% of the cost was paid by ODOT. When working successfully, this new system will eliminate a lot of the paperwork now being generated and reduce the man hours necessary to complete that paperwork.
- Cost of gas will obviously impact our bottom line. In addition, because the busses are out in the weather, repairs continue to be a cost concern

OPERATING STATISTICS FOR OCTOBER 2011 – MARCH 2012

•	Miles traveled	100,700
	o Revenue	86,494 (86%)
	o Non-revenue	14,206 (14%)
	Trips (6 months)	8652
	Cancelled	17%
	No Shows	7%

Currently we are averaging 16,783 miles per month. A decrease from the previous 6 months of 2,717 miles per month. We have also seen a 12% client loss per month. These decreases are reflective of reduced operating hours that we needed to implement to offset the loss of the Job and Family Contract in 2011.

In 2005, Senior Enrichment Services agreed to assume the responsibility of operating the rural transit system for the county. Under the previous management, the county provided financial support of between \$65,000 and \$75,000 annually and the system ran in the "red". The initial agreement with the County Commissioners was that the county would continue to financially support their transit system and the agreed amount was \$25,000 annually – providing a savings to the county of between \$45,000 - \$55,000 a year.

In 2006, Senior Enrichment Services received the agreed to \$25,000 but has not received any support since that time. In the past, we have been able to operate the transit system in the black due to contracts and sound fiscal management. Hence, we have not approached the commissioners for the support that was initially agreed to. If you take that into consideration, we have saved the county between \$325,000 - \$375,000 while still providing services and operating in the black. However, even though we have taken the steps to reduce hours and increase fares we have not been able to compensate for the \$91,000 we have lost in contracts over the past 2 years; with most of that loss as a result of losing the Job and Family contract and the remaining loss due to schools having to reassess their positions. Senior Enrichment Services is asking that the commissioners to begin to provide the annual financial support that was agreed to in order to keep the system fiscally sound.

Ms. Smith asked permission to put a shed up to store the pressure washer in for the buses. The board agreed.

After the presentation the board agreed to look at the situation in regards to the \$25,000 request of funding that was agreed to in the original contract.

At 11:12 a.m. Assistant Prosecutor's Report

Daivia Kasper explained that Tod Wagner has appealed the decision of the court and filed the notice of appeal at the end of last week and what means is that it is really just a time line now. The court reporter has asked for 60 days to prepare the transcript further explained the process.

<u>At 11:14 a.m.</u> Dennis Russo has and update from the Health Department and stated that the Health Department would. Mr. Russo stated that both OSU and Board of Elections are excited about this.
