OTHER BUSINESS

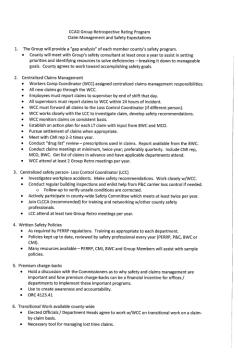

Larry Silcox stated that the sales tax report has been received and it is up again which will help next year.

At 10:00 a.m. Beth Miller and Jim Hale, CORSA, and Bobbijo Werren, CompManagement came before the board for a presentation in regards to the CCAO Group Retrospective Rating Program. Ms. Miller explained the CCAO program and stated that it is their goal to assist every county and help each county to find the right fit for them the best economical way to accomplish either workers' comp or property and liability insurance. Ms. Miller stated that the overlay between workers' comp and property and liability is safety. Safety is absolutely vitality important to your workers' comp program. The most important way to control your workers' comp cost and the best thing for your staff is to have a safe work place and not have people get hurt in the first place. The same is true with the property and liability insurance because if you can avoid that accident you are better off. Ms. Miller introduced Jim Hale who is a safety consultant for CORSA and further explained CORSA programs which are safety incentive. Ms. Miller further introduced BobbiJo Werren, from CompManagement and explained what her role is in managing workers' comp claims. Ms. Miller stated that for many years Huron County has been in group rating, and explained what group rating is and further stated that the bureau is changing group rating because the bureau is getting away from up front discounts. Now instead of giving the discount up front the group retro program earns the discount based on how well their claims perform during that year. The advantage to group retro even though you give up the up front discount the actual later discount is turning out to be a higher amount then what the group rating plan is getting right now. The county can go into the group retro and it is an annual decision to belong. Ms. Bommer stated that she wanted to clarify that group rating still exists it is not gone. Ms. Miller stated that is correct but because of the changes to the Bureau regulations where we

used to save 45 to 50 percent of the premium it is now saving between 12 and 15 percent. Bobbijo Werren explained what CompManagement does for the county. For the past several years Huron County has qualified for the group rating discount and further explained Huron County's history. Ms. Werren stated that we have been looking at this and discussed with the board earlier we knew that this was coming based on some claim activity and we are looking at increased premium and no longer qualifying for the group rating due to the claims history along with changes that the Bureau has made. Ms. Werren stated that she is always had by counties how they compare to other counties and she further explained this for Huron County. Ms. Werren explained how the Bureau has lowered the county's losses, which is like lowering a credit card limit. In Huron County we had two things going on we had credit card limit coming down but we also had claim activity and it is a little greater than you had in the past. Carl Essex asked a question in regards to payroll dollars which was answered. Beth Miller further explained how the Group Retrospective Rating Program will work and what is expected of the counties in the group. Ms. Miller discussed transitional duty and salary continuation and stressed the importance of transitional duty.

CCAO Group Retrospective Rating Program bullet points

Jim Hale explained the program affecting safety overall and stated that the fact is that anything you can do to prevent an accident in the first place is something that needs to be done. The real key is preventing the accidents from ever happening. Further detailed discussion was had in regards to the CCAO Group Retrospective Rating Program, the safety factors that are involved in belonging to the group, the salary continuation and transitional duty. Mr. Silcox stated that we are here today because of what has happened in the past and now we have to make a decision on how we move forward. The Commissioners can make that decision but everyone here has to be involved on a daily basis and we have to go through the departments to look and see where possible injuries could occur and look at what has happened. Mr. Silcox stated that we can not do this by ourselves. We have certainly talked recently about ORC 4123.41 and the paybacks, and believe because of what has happened in the past you will probably see that from the commissioners' office. It will behoove everyone to take this program very seriously as we move forward to prevent injuries and claims and help our employees, which is what it is all about. Mr. Silcox thanked the presenters for their time today, and also stated that safety, and accident prevention and frequency and severity should be on your mind everyday.

At 11:20 board recessed

At 11:40 a.m. regular session resumed.

Mr. Silcox stated that he would like to meet in a special session on Thursday, October 27, 2011 involving Executive Session personnel, the Ohio Telecom contract, and making a decision on the BWC CCAO Group Retrospective Rating Program. The board agreed to do so.
